INTERNSHIP

Stockone☐   **OCT 2022 – May 2023**
Technical Intern   *Banglore, India*

- Stockone is a cloud based warehouse management software for brands and e-commerce companies to manage fulfilment operations at scale.

- **Involved in OMS Tool Integrations**
- **In the context of Cypress integration testing, I have been responsible for creating test scenarios and test cases for our WMS (Warehouse Management System) product. I consistently execute these test cases with each release, actively assisting developers in identifying and resolving issues before the product is released to ensure a smooth and error-free deployment.**
- **Possess proficiency in Postman API testing. I am responsible for conducting Postman API tests for our product's public APIs.**
